The following measures have been taken to prevent the diversion/ black marketing of domestic LPG cylinders for commercial purposes.

(i) Under the LPG (Regulation of Supply and Distribution) Order, 2000 promulgated under the Essential Commodities Act, 1955 the diversion/black marketing of domestic LPG cylinders for commercial purposes by the distributors OMCs is prohibited. The State Governments are empowered to take action against erring distributor under the provisions of this Order. The State Governments have been alerted from time to time to take steps against the diversion of domestic cylinders for unauthorized usage.

(ii) The officials of OMCs carry out random checks at distributors godown, delivery point, as well as en-route to ensure that no diversion/black marketing takes place. As per the MDG, in case of establishment of any diversion/black marketing of domestic LPG cylinder for commercial purposes, the following action is taken against the distributor:—

(1) Fine of Rs. 20,000 plus the price of LPG diverted at commercial rates for 1st offence.

(2) Fine of Rs. 50,000 plus the price of LPG diverted at commercial rates for 2nd offence, and

(3) Termination of the distributorship for 3rd offence.

The proposed different colour scheme for domestic and commercial cylinders is likely to help in controlling the diversion of domestic LPG for unauthorized use.
